Dear Susan:

I wanted you to know how much I enjoyed taking stained glass classes with you. The initial reason I took your classes was to create something for my grandson's nursery . . . the result was "Monkee". Now I can't stop!

During your classes, you effectively guided me through the nuances of building beautiful stained glass, sharing not only sound techniques, but also sharing the history of stained glass artwork.

The nurturing atmosphere, your calming presence, and limitless patience helped build my confidence. I truly enjoyed learning the correct method of creating pieces that can pass down through generations.

Thank you again for **everything**. Can't wait to work with you again and improve my abilities!

All the best,

Pamela Higley
